OBJECTIVE

To leverage my expertise in front-end development, including HTML, CSS, JavaScript, Bootstrap, Tailwind CSS, React.js, and TypeScript, to create responsive, user-friendly, and visually appealing websites. I aim to contribute to innovative web projects while continuously refining my skills and staying updated with the latest industry trends.

EDUCATION

BCA Shri Gnanambica Degree College.	2022 - Present
Maintaining 70% CGPA	
MEC Sri Chaitanya Junior College	2020 - 2022
68%	
SSC Hope English Medium High School	2019
98%	

SKILLS

Frontend Skills	JavaScript , React , Typescript , Swal , ShadCN , AOS
Programming Lang	Python & JavaScript
Core Subjects	Data Structures and Algorithm
Tools	VS Code, Netlify, GitHub Pages, Replit, GitHub.
Soft Skills	Communication, Presentation , Team Management , Adaptability & Innovative.

EXPERIENCE

Full Stack Bootcamp Student	Feb 2024 - Present
DEVSNEST	

- Currently participating in a year-long Bootcamp, with the initial three months focused on Python and Data Structures & Algorithms (DSA), followed by an ongoing seven-month specialization in frontend and backend development using modern tools and frameworks.
- Developed over 12 projects within a three-month period, including major ones like an E-Commerce website, Personal Portfolio, Movie Search App, and Task Manager, highlighting adaptability and skill growth.
- Actively contributed as a team member, supporting a group of 30 members in collaborative learning and project development.

PROJECTS

E-Commerce Platform: A full-stack e-commerce platform built with React.js, TypeScript, ShadCN UI components, and Vite integration. Features include a responsive UI, pagination, and modern design practices.

GitHub: [Code Link](#)

Personal Portfolio: Created a responsive Personal Portfolio website showcasing my professional journey, skills, and projects in a clean and interactive manner. Built with HTML, CSS, JavaScript, and Bootstrap, it highlights my web development expertise through an elegant, responsive design.

Link: [Live Demo](#)

GitHub: [Code Link](#)

Movie Search App: Built a dynamic movie search app with React, TypeScript, and Tailwind CSS, integrating the OMDB API for real-time movie details. Features include instant search, pagination, infinite scroll, and a responsive, modern UI with robust error handling.

Link: [Live Demo](#)

GitHub: [Code Link](#)

To-Do App: Created a responsive To-Do App using HTML, CSS, and JavaScript with Local Storage integration. Enabled task addition, editing, deletion, and persistent data storage for seamless user experience.

Link: [Live Demo](#)

GitHub: [Code Link](#)

Memory Card Game: A modern web application for a memory card game, developed using HTML, CSS, and JavaScript. Features an interactive game board, engaging animations, and persistent storage for high scores using Local Storage.

Link: [Live Demo](#)

GitHub: [Code Link](#)

Personal Finance Tracker: A modern web application for personal finance tracking, developed using HTML, CSS, Bootstrap and JavaScript. Features a dynamic budget calculator, user-friendly interface, and persistent storage with Local Storage.

Link: [Live Demo](#)

GitHub: [Code Link](#)

Weather App: Built a weather app using HTML, CSS, JavaScript, Vite, WeatherAPI, and Geolocation. Provides real-time weather details based on the user's location, including current conditions and temperature.

HOBBIES

- Problem-solving experience on platforms like LeetCode, focusing on algorithmic challenges and coding efficiency.
- Playing Cricket, Watching Movies and listening musics.
- Playing Chess in free time.

CERTIFICATIONS

- **FrontEnd Web Developer** - [Infosys SpringBoard](#)
- **Young Python Professional** - [Infosys SpringBoard](#)

ACHIEVEMENTS AND PARTICIPATIONS

- Educated 300 government school students on technology and discipline as part of a 20-member team.
- Guided more than 30 students in problem-solving and frontend web development during my bootcamp.
- Assisted classmates and juniors in learning coding during my college years.
- Secured a top 10 position in a hackathon at MITS College.
- Achieved a top 5 position in the Codethon competition at my college.
